New

Market-leading accounts software for small to medium sized businesses who need complete control and confidence in their finances.

What's new in Sage 50 Accounts?

Sage 50 Accounts has been transformed. Now it gives you the best of both worlds, with the benefits of stable, reliable desktop software and the choice to link your data in the cloud, to give you greater flexibility.

- Share data with your accountant in real-time – no more waiting for files to be transferred*
- New Sage 50 Accounts mobile apps help business managers and sales teams understand performance on the go*
- Automatic backups protect your data
- New look and feel makes it easier to find tasks with one-click navigation
- Tested to deal with up to 1.5 million transactions
- Scalable up to 20 concurrent users**

Navigate in half the time

New look and feel designed to make it simpler to use, so you can navigate the software in half the time.

- One click access to any ledger
- One way to access key tasks
- Easier to move your data using Windows shortcuts

Work more efficiently - tailor your screen so you see the information and tasks you want and hide those you don't.

Software that fits the way you work

- Set up Sage 50 Accounts to suit your needs or those of different roles within your business
- Configure the navigation and task tool bar to fit the way you work and increase your productivity

Real-time access to your information anywhere

By linking your Sage 50 Accounts data to the cloud, you can easily access it from other devices with Sage Drive. For example, a colleague working from home or anywhere outside the office can access the updated information and work on the same data as if they were in the office. You receive one Connected Device with Sage 50 Accounts.

Software that grows with your business

Grow your business with software you know – now supports up to 20 concurrent users**.

Simple control of access rights

- Decide who can see what, with simple to set up access rights
- Control data access for up to 20 users**
- Your data is only available to the people you allow to see it
- Maintain control of data access at all times

Data secure and backed up

- Ensure your backup data is always up to date by scheduling regular automatic backups
- Your data is automatically checked before the backup is taken
- No need to stop processing when you're taking a backup

Fast
In tests over 2,000 users reduced the average time it took to navigate with new Sage 50 Accounts by 44%
